PROFILE

Motivated MIS student with strong interest in software, website and system development, and API design. Skilled in C#, Java, Python, PHP, SQL, Django, and Laravel. Experienced in developing academic projects involving databases, REST APIs, and desktop applications. Quick learner with strong analytical, problem-solving, and teamwork abilities, seeking an opportunity to contribute and grow as an IT System Development Intern.

RELEVANT SKILLS

Full Stack Development

- Developed basic full-stack applications combining frontend and backend
- Integrated frontend interfaces with backend APIs
- Worked on system-based applications such as POS and E-commerce systems

Backend Development

- Developed server-side logic and APIs
- Integrated frontend with backend services

Database Management

- Designed relational databases and optimized queries
- Performed CRUD operations and data validation

Problem Solving

- Debugged and fixed system issues
- Improved performance and system functionality

WORK EXPERIENCE

Backend Developer (Academic Projects)

2023 - PRESENT

SETEC Institute

- Developed a POS system using C# and SQL Server for managing sales and inventory
- Built an E-commerce backend API using Django with RESTful services
- Designed database structures and implemented CRUD operations for multiple systems
- Collaborated with team members to complete system analysis and development tasks

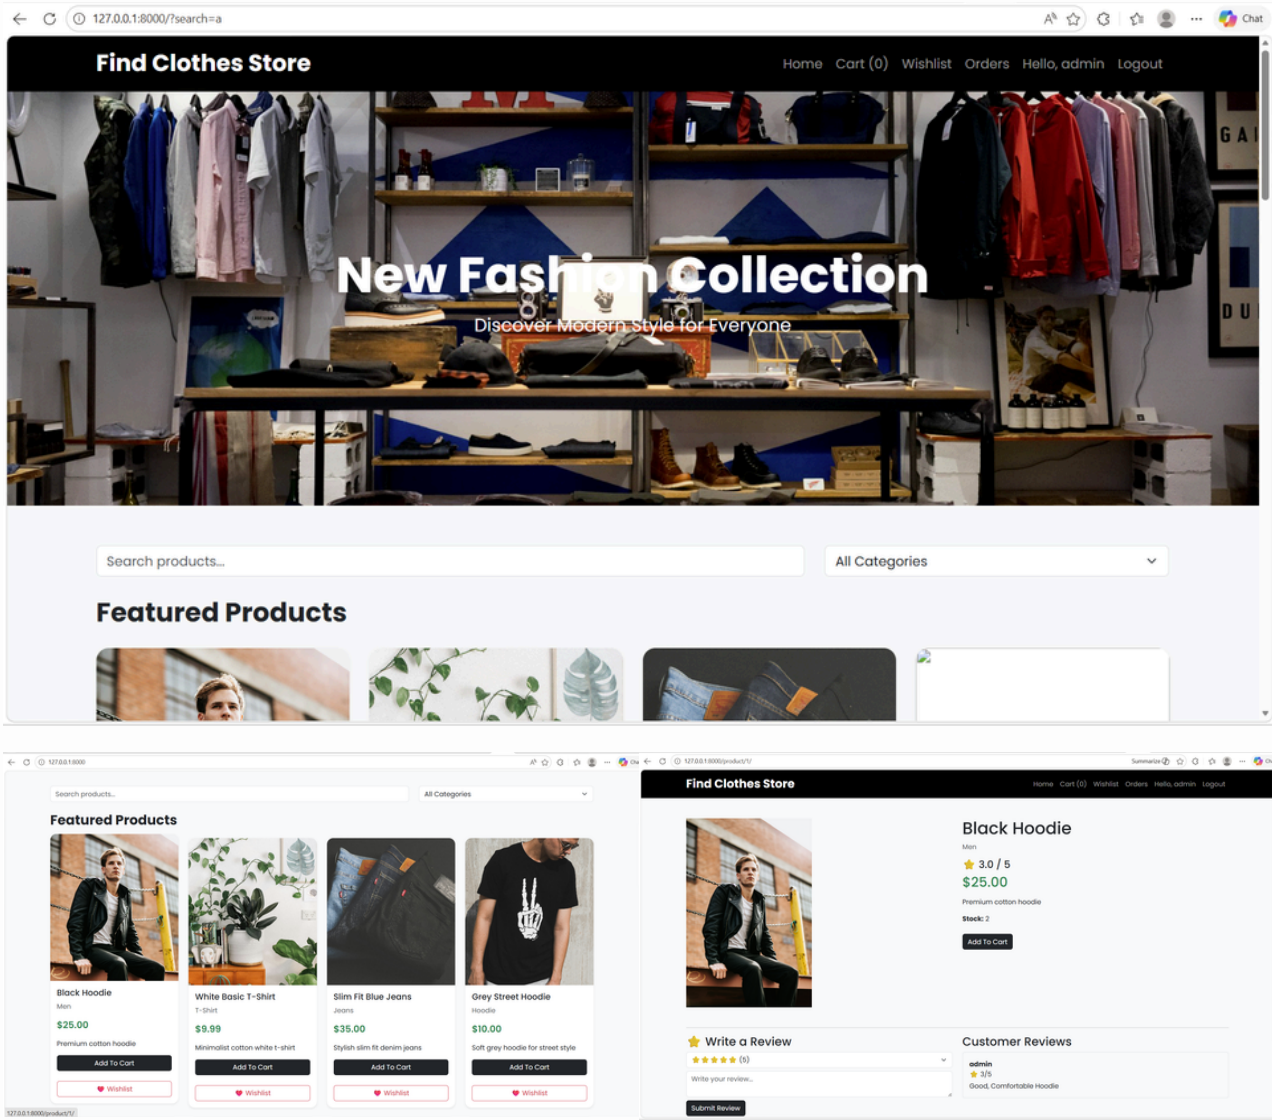

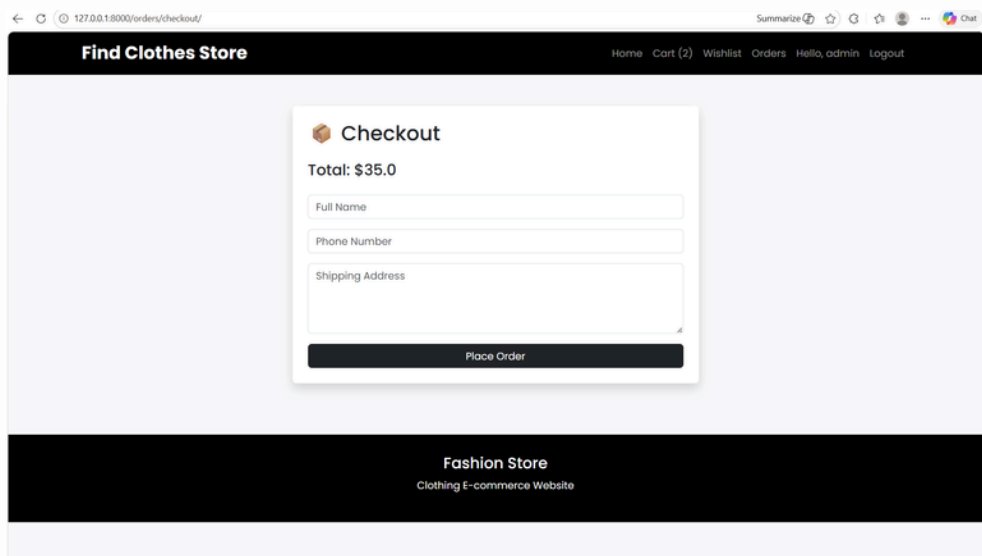

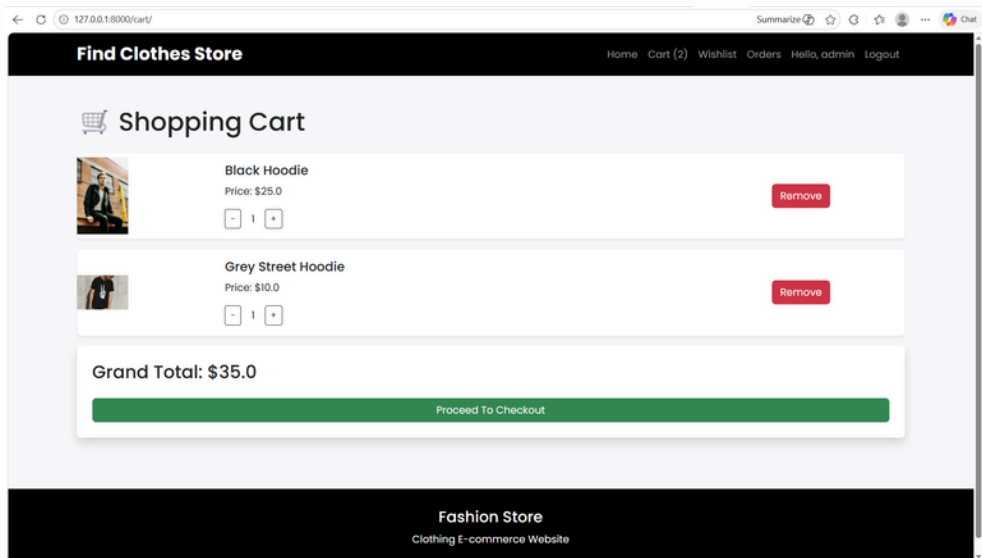

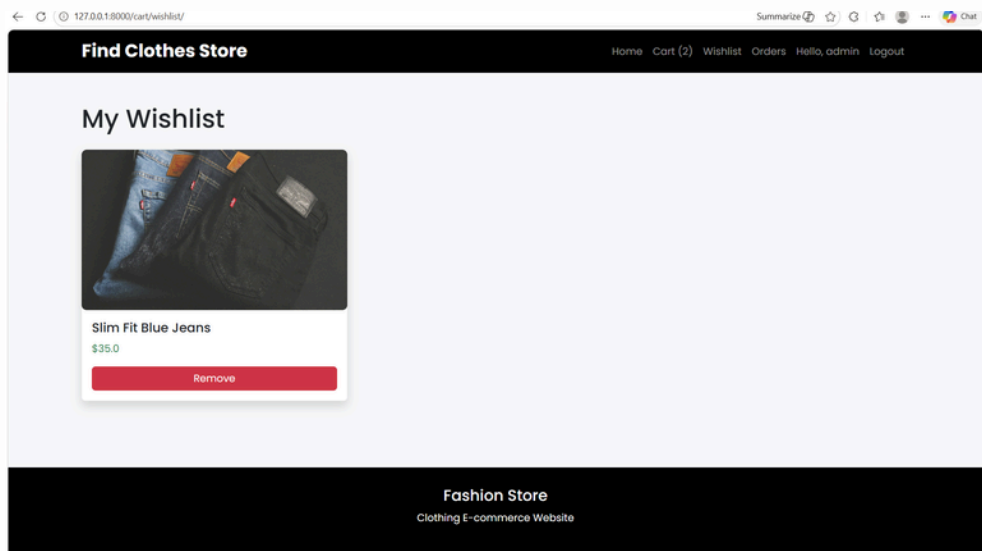

EDUCATION

- SETEC Institute: Year 4 of Management Information System (MIS) (GPA 3.58/4.0)
- Institute of Foreign Languages: Bachelor Degree of Chinese
- Australian Centre of Education: Graduated GEP12
